Hello experts !

I have the free version of Rainlendar and I love it. Nevertheless I just want to have the small screen with the monthly calendar, not the "Events" and not the "To do" small screens at the left side of the montly calendar. Is there any way to get rid of them ? thanks in advance for your answers and suggestions. Best, Antonio.

Is there any way to get rid of them ? Sure.

Look in Option--> Skins and deactivate your "Events" and "To do"

where can I find "Options"

If you have a trayicon in your taskbar (show in the system tray) --> right click with your mouse

or

right click on your calendar
