Hi,

I have a problem with window for Events. I don't see this window in my desktop. I used Rainlendar 2.0 and Glossy 1.2.

It is possible help me?

Thank you...:(((

Hello,

Now i have a Event list in Gloosy, but i must change this file (Glossy.ini).And thank you, for your response.But i need now a activation,because i using Outlook and Google Calendar,where has a problem.This is my log file:

http://www.google.com/calendar/render?cid=josef.lukastik 8,50512e-314mail.com
13:10:34: Google: Result: (0) 302 Moved temporarily.

13:10:37: Google: Result: (0) 200 OK.
13:10:37: WARNING: Google: Unable to parse the file. Are you sure it's a iCalendar file?

It is possible help me? Activation and Google Calendar?

Best Regards...

you have to pay for the Pro version
don't ask for a free activation.. you know better than that

Your url is incorrect. You need to download the ics-file from Google calendar. See the help file for details how to use Google calendar with Rainlendar.

I don't know what you mean by "activation".
