
Where is my Rainlendar after re-starting my PC ?

Posted by Antonio Machado - 2009/06/10 10:14

Hola experts !

I was working perfectly well with my Rainlendar (free version) during several weeks, but a moment ago I had to re-start my P.C. and then it doesn't appear on my screen.... where it is ? did I lost all my information about appointments, etc. ? thanks in advance for your help. Best, Antonio Machado.

Is the process running? What happens if you try to start Rainlendar again?
