## Can I change the font size? It is really tiny

Posted by belabomb - 2009/08/12 13:43

---

Hello, fellows, I'm brazilian and I have a big problem to see minor words, so, what I was looking forward to was a way to enlarge the font of the Rainlendar , calendar and etc..

Is it possible to be done? How?

Easiest way to do that is from Options->Advanced->"Font Scale".
