Can I change the font size? It is really tiny Posted by belabomb - 2009/08/12 13:43 Hello, fellows, I'm brazilian and I have a big problem to see minor words, so, what I was looking forward to was a way to enlarge the font of the Rainlendar, calendar and etc.. Is it possible to be done? How? Re: Can I change the font size? It is really tiny Posted by Rainy - 2009/08/13 10:24

Easiest way to do that is from Options->Advanced->"Font Scale".
