
Problem with Language UPLOAD!!!

Posted by Translate of Mongolian - 2009/10/21 17:06

i am translate in Mongolian. But translated file uploading this message appear "The "X-Poedit-Language" is missing or it's empty."

Help me

You can send the translation to the Rainlendar's support address. I can check what's causing the problem.

You forgot to fill out the project-information. If you load your pot-file in poEdit, and find the menu-item Settings, you'll find where to do it/what's missing. :)
