
Any mobile phones which support rainlendar?

Posted by mystvearn - 2010/04/07 15:34

Hi,

I have the pro version, and I was wondering if I can bring my appointments everywhere I go now :laugh:

Any mobile phones which support auto-sync with Rainlendar? If there are multiple phones, which phone is the best? Few suggestions are fine with me.

Currently using a SE C510 and its fine, but not really like the Rainlendar interface.

Thanks

Is this what you are looking for? C510 is supported.

I have that software. Rainlendar can auto sync with that, and that can autosync with rainlendar?

Looking a way on how to use rainlendar on my mobile
