more color options?

Posted by indolence - 2010/06/02 00:16

_____

For the default skin, is there a way to add "orange" to the color list when creating an event? They have the color brown to color the numbers on the calendar but it's orange on the "to do" list. It would be nice if it could be orange on the calendar as well.

_____

I can add some more color options to the skin when I have some free time.
