
Rearrange ToDo items by clicking and dragging?

Posted by andygrunt - 2010/06/18 05:51

I'd love to be able to rearrange the order ToDo items are displayed by simply clicking and dragging them - would that be possible?

Yes. Right click on one of the tasks and choose "Custom" as the primary sort order.

Great!

I could have sworn I'd already tried that - perhaps I didn't have it as the primary order? Anyway working now, thanks.
