
Rainlendar 2 and Office 2010

Posted by sam49 - 2010/07/14 07:21

Hi i have been using Rainlendar 2 for a while now but now i have instaled Office 2010 and now when i try to add outlook calendar to rainlendar i get the following error (Unable to initialize the MAPI library)

So has anybody got any ideas please

If your Office 2010 is 64 bit you need to install the 64 bit version of Rainlendar. See here:
