Some of the files in your skin are outdated. But you can upload the French localizations ("weekview-French.png" for example) in a zip file and tell Rainy to update these in the Language addon file, and share it with everyone.

And for a fully French localization, did you see  
[http://www.rainlendar.net/cms/index.php?option=com\\_rny\\_localization&show=French](http://www.rainlendar.net/cms/index.php?option=com_rny_localization&show=French) ?

No problem Jorge\_Luis,

I'll add the french needed png's to the Language addon file.

Of course I use the latest translation of rainlendar.

But I don't know where is the latest Widget Addon. Do you know where is it?  
I want to translate it too...

Yep wonderful!

@Rainy: Thank you! I made a little change for the french traduction 'EVENTS', I added a 'S' like in english. I saw you've not added this file : voluntary or mistake?

@Jorge\_Luis: Sorry for this question, of course, all images are in the language addon, even images for widgets addon. Thank you for the link.

So, now I consider I have an upodate french version with addons of rainlendar with this links :

- 1- Rainlendar-Pro-2.7-32bit.exe
- 2- French language
- 3- Shadow4-Languages.r2skin-addon
- 4- Shadow4-Widgets.r2skin-addon

Thanks all, alright!
