## Blue dates! Me no like ;-)

Posted by swehawk - 2006/12/13 13:53

---

Blue seems to be the default date-colour in the calendar. If I enter an event, even without setting a category, the date turns blue, even if it is a weekend-day! Is it possible to turn this behaviour off? I would like to keep the white-dates if I don't set a category which has a specific date-colour. I'm running 2.0.1 (b28) with Shadow4 skin, Swedish lang.

I'm sure this is isn't the answer you were looking for but I'm currently using Darkness 1.1 skin and it does not use blue dates. It leaves them white. I think it must be part of the skin's design. Anyway just thought I'd let you know.

Edit the skin and remove the <event> element from the calendar.xml.

Thanks Rainy, that did the trick :-) Quick and simple solution!  
Also thanks to rgoshert, even if your's wasn't the answer I was lookin' for, I'm gonna check out the Darkness skin anyway!
