## crossed passed days

Posted by jrp - 2006/12/13 19:43

---

I don't know if this can be done yet, bit I was hoping Rainlendar could cross out (as a skin feature, I imagine) the days before today. Just like most people do with their kitchen calendar.  
:woohoo:

I doubt that there will ever be a dedicated option for it in the UI but it should be possible to implement such feature once the scripting interface is finished.
