## Font help in Category section

Posted by Tethula - 2010/10/20 13:24

---

My first post here and let me first say awesome job to the maker of this little app. I used it for about 5 minutes before I bought it, I am never that hasty in getting a program or game.

Now to my little issue:

I have been modify the Chromphore skin to my liking. My only issue I am having is I would like to change the text color for a category in the week view.

Now I do know how to change the marker that is to the left but I also want to change the color of the text to the same thing. I have figured out how to do it to the tooltip, eventlist, but I haven't found an example or forum thread on what to change for the text of the category in week view.

Thanks in advance and again awesome app.
