## Digiclock

Posted by rgoshert - 2006/12/14 17:55

---

I can't seem to get my digiclock to show the time based on 12 hour time. I put %l in the TimeFormat box in the Advanced settings but it does nothing. What am i doing wrong?

You need to change the format in here: Options->Skins->Shadow4 - Digiclock->Settings.
