
Calendar deletion

Posted by Joech - 2010/12/08 10:08

How do you delete a calendar? I created a copy of calendars while setting up the software but only require one calendar. Can't find instructions on deleting unwanted calendars.

(using 2.8b99, but i think this works on 2.8 and 2.7)

Right click on a window -> Calendars page -> You will find a list of the calendars and three buttons "Add...", "Remove" and "Duplicate...".

Thanks, but this did not work. My calendars option only allows "enable all calendars" or "disable all calendars".

Sorry, i missed something.
Right click -> "OPTIONS" -> Calendars -> three buttons.
(remind this is using 2.8b99, but i think this works on 2.8 and 2.7)
