
[Solved] Cannot choose snooze time in alarm window

Posted by ichabod165 - 2011/02/15 02:13

Hello,
I have a problem with rainlendar pro (v2.8.1) in windows 7 64bit.
At the alarm windows with right click I cannot choose any snooze time because I don't see any snooze time choices (see screenshot).
http://www.rainlendar.net/cms/images/fbfiles/images/alarm_window_right_click.jpg
Any suggestions?
Thanks.
Kind regards
Dieter

I have to add some snooze times choices at the advanced properties for the alarm. Point "Snooze times (mins)". It was empty. Don't know why but now it works.
