
2 AM Will Not Display

Posted by Ms Stretch - 2011/03/08 12:26

When I try to set an event to 2 or 2:30 AM, the time defaults to 1 or 1:30 AM. (PM works.)

Rainlendar v. 2.8.1 32 bit

Shadow4 skin, but same occurrence with all skins.

Any advice or comment will be appreciated.

Are you trying to set that on the day when the daylight saving time changes? If yes, note that there is no such time as 2AM on that day.

Thank you. It was on the day when DST changes. I see now, I guess 2 AM technically doesn't exist.
:blush:
