
Hover image/color etc.

Posted by Rodger - 2011/03/16 11:26

Just wondering if it would be possible to add a hover state image for the calendar.

For instance, we can already have exdays, event days and today for image in the grid calendar, but I think it would be a nice addition to be able to specify a hover state for the days to make it a little easier for people to see the exact day they are hovering over to add an event or task for that day in the grid.

I'll see if it is possible to implement.
