
howto resize the TODO list?

Posted by philsstar - 2006/12/31 08:33

Hey,
i just realized that rainlendar 2 adds a scroll wheel when too many items are in the list.

Howto change that. I like to see all my TODO's at once.

thanks
phil

Assuming that you're using the Shadow4 skin:
Options > Skins > Active skins (section) > Windows >
select 'Shadow4 - ToDo List' >
button 'Settings' >
Variables >
Todolist height
Todolist width

never expexted it to in the skins options.

Thanks!
