## Where's the "Apply" button?

Posted by ccufcc - 2011/05/24 13:13

---

It's a tragedy when there's no apply button :(

I kept pressing option and ok and open option again for setting my skin perfect :(

A "Preview" button will be wonderful, if that won't overweight the program :)

Thanks!! [http://www.rainlendar.net/cms/images/fbfiles/images/apply\\_now\\_button.jpg](http://www.rainlendar.net/cms/images/fbfiles/images/apply_now_button.jpg)
