## unable to download google tasks list

Posted by julang - 2011/08/03 21:59

---

I use beta 2.9(b110) 64bit for windows, open rainlendar, then popup error about google tasks. I retried refresh and exit/reopen, but still got this error!  
Notice: when i first run rainlendar, it got task list success! <http://www.rainlendar.net/cms/images/fbfiles/images/error.PNG>

It means that the daily quota reserved for Rainlendar has ran out. There is nothing that can be done about it but to wait and hope that Google agrees to give more quota for Rainlendar.
