## Distortion with Lion OSX

Posted by griffer - 2011/08/06 18:01

---

After installing Lion OSX I find a periodic distortion with the program. Sometimes it is the To Do and Events boxes appearing enlarged and smeared across the screen, other times it is the event balloon that appears when you float your cursor over a date that appears stretched out and distorted. If I quit and restart the program it will occasionally fix the problem, but most persistent is the distortion of the event balloon over the dates. Running a Mac Mini with:

Processor 2 GHz Intel Core 2 Duo  
Memory 2 GB 667 MHz DDR2 SDRAM  
Graphics Intel GMA 950 64 MB
