## Linking icon to event

Posted by chaneyd - 2011/09/21 08:32

---

I've added an event to the list (Appointment). I'm ok with the icons that are available but where and how do I choose one for my new listing?

You can choose a category for your event which defines how it looks like in the calendar and event list. If you want to customize the appearance you can do that in Options->Skins (click the Categories button).
