## how to skin folder for Rainlendar2.9

Posted by vanluaninfo - 2011/09/23 04:15

---

Hi! I download skin(SUPERCOLOSSAL) as <http://customize.org> and unzip, i found a folder (SUPERCOLOSSAL) and I copied the skins folder and restart the program did not see it in the list of skins program. (Skin I installed is called SUPERCOLOSSAL(<http://customize.org/rainmeter/skins/61892>)). I used the new v2.9 rainlendar. Expect people to help. Thanks a lot

Please closer look, SUPERCOLOSSAL is a skin for Rainmeter, rather is not a skin for Rainlendar.
