
Quote of the Day

Posted by doublewitt - 2011/12/08 22:08

Would it be possible to have another option in the Shadow4 skin such as a NOTE section to enter a quote of the day or any other type of note? It could be the same as the todo and event where we can resize it. The title could be NOTE or QUOTE OF THE DAY. Would appreciate this added ability. It doesn't seem like much work to add it - but I have no knowledge to do this... any hope?
