## cant change end date

Posted by hanuta - 2007/01/07 15:58

---

hi,

i cant change the end date of a event.  
the event is dated from 08/02/07 to 15/02/07.  
if i want to change the end date to 17/02/07 it had no effect.

whats the problem?

version is 2.0.2

Can you give me some more details? Does any end date work at all? What about changing the end time? Can you attach the event?

oh, i found the problem by myself while looking into the ics file. the calender created the event by adding a recurrence until the end date. there may was a bug in a previous verion. now i disabled the recurrence and everything is perfect.

thx :)
