
[Closed] Bug for weekly recurring task

Posted by anoob - 2012/01/04 10:49

Have two bug for weekly recurring task:

The setting of task:

Due time => 2012/01/01 (yyyy/mm/dd), time is before 08:00 (because local time-zone is +8)

Recurrence => Repeat every 2 weeks, default "Sun" had selected

1. Every time reopen the "Task Dialog", viewing to "Recurrence" (or direct click "OK" exit), the previous day ("Sat", "Fri" ...) will be selected.

2. When mark the task as "Completed", it not display at the next 2 week day (2012/01/15), but display at the next week day (2012/01/08).

I managed to reproduce both issues. I'll check what's causing them.
