
Events with indication 1e

Posted by mverk - 2012/02/07 05:30

Since the last version I get a number of events with the indication 1e (in Dutch 1ste).
I don't now the meaning of this and also I can't find where to switch off that indication.
See example in the attachment http://www.rainlendar.net/cms/images/fbfiles/files/Rainlender_Events.doc

I've tried to switch that of as well. But despite help from Rainy I've failed completely. Mildly annoying...
In previous versions I've been able to switch it off.

This is the Dutch translation file error, please provide the Dutch about "1st; 2nd; 3rd; 4th"(the display style what you want), although i do not understand Dutch, but I can help for amendment.

add note: i had modify the Dutch translation file, please re-download from
