## drag and drop Tasks

Posted by goanddo - 2012/02/15 04:14

---

I'm posting this because I didn't locate it as a feature in any searches. I typed a number of items in my first Task List. Now I would like to drag and drop them to put them in the order I want them to appear. I see some pre-defined ways to sort, but can't find a way to rearrange the order of my tasks. If there is not a way to do that, it would be one of my favorite features! I drag and drop like I eat pizza... folded and with big bites. Just kidding, it's late.

Thank you so much! My first look at the program and it's looking good!!

Welcome to the forum, goanddo.

You can drag and drop tasks selecting "Custom" as the primary (or secondary) sort order.
