## Request: Add years to categorys

Posted by Andre Linoge - 2007/01/09 05:15

---

Good morning

The option to add years behind birthdays and anniversaries, is fantastic. It gives me, among other things, the opportunity to see how old relatives are, or how old past away relatives would have been. Besides that, there are "special days" to remember which are under different categories. Therefore I like to request, if possible, an option that allows the user to add/or not, years behind other/new categories.

Regards  
Andre Linoge

The years in birthdays and anniversaries is just a temporary solution. There will be a more flexible way to add years (or days, weeks, months, ...) to the events in the future.
