
Any way to remove transparency from Shadow4?

Posted by Dexter_prog - 2012/03/17 13:05

This skin is good but transparency often renders the alarm notification unreadable. Is there any way to remove it?

Although cannot remove transparency from shadow4 directly, but can via modified some shadow4's files to done. I had added 1 option "AlarmBG opacity" that can control the opacity.

http://www.rainlendar.net/cms/images/fbfiles/files/Shadow4_AlarmBG.zip

It's an addon. Just install it with Rainlendar2. It will replace the original files.
