## events list - showing days without event

Posted by Yoss - 2012/03/20 12:17

---

Hello.

It would be usefull for me if that days without events could be showed in events list. I mean now is:

Monday

- event 1

- event 2

Wednesday

- event

And if it would be:

Monday

- event 1

- event 2

Tuesday

Wednesday

- event

we could

1. Add an event to "empty day" just like to others - by double clicking a day

2. Just a drop of eye would show in which days I have no appointments

=====
