Shadow4 \"month arrows\" disappeared

Posted by BRX - 2012/04/05 05:10

_____

coming from Rainlendar 0.x, I get slowly used to Rainlendar2 Lite. Skin shadow4 1.9. I miss the arrows left and right of the month's names (to move back and forth). where can they be turned on again? Also, I have no tool tips in the tray icon (but the date is shown correctly) "tooltip in tray" is set to "always". Thanks for any help!

Welcome to the forum BRX.

Right click on a window -> options -> skins -> advanced>>> -> active skins -> Shadow4 - Calendar -> settings... -> window variables -> show buttons.

In this same panel, try to find if the tooltip is active. If not, select it from the left panel and click the "->" arrow.

_____

Thank you for your suggestions.

"Right click on a window -> options -> skins -> advanced>>> -> active skins -> Shadow4 - Calendar -> settings... -> window variables -> show buttons."

However, for the grid calendar (I like to see 2 months at once), there is no "show buttons"check box. (Viewing several months with buttons was possible in earlier versions.)

"In this same panel, try to find if the tooltip is active. If not, select it from the left panel and click the "->" arrow."

"tooltip" (shodow4-tooltip) is active, and yet, I don't get tooltips in the tray.

what could I do?

(I'm using XP Home, SP3)
