
ICS files in the Week View does not appear

Posted by jokr - 2012/04/07 09:34

ICS files (holiday data from Schleswig-Holstein in Germany) are on the calendar displayed in Day View and in the month view. But in the Week View does not appear. http://www.rainlendar.net/cms/images/fbfiles/files/Ferien_SH_2012.ics

Try the latest beta version

(http://www.rainlendar.net/cms/index.php?option=com_kunena&Itemid=42&func=showcat&catid=7). I tried the file and it showed the events also in the week view.

I tested version 2.10 (b 112) and Shadow 4 Vers 1.9. The bug remains. See the image file. http://www.rainlendar.net/cms/images/fbfiles/images/DSC02744_1.JPG

This will sound stupid, but is the green event starting at 7 AM and end at 7:30 AM and the Week View showing from 5 PM to 8 PM?

EDIT: Sorry, I was looking at the cursor, and didn't see the red rectangle.

I try the ICS file on my PC and works fine. It show the event on the Week View.

I tested again. I've now completely uninstalled version 2.9 and 2.10 (b. 113) installed. It works! Sorry and thank you!

Version 2.10 (b 113 and 116) but shows no alarm-window.
