
Some new strings

Posted by Leif - 2012/06/18 10:54

I need help with these new strings:

1 repeat ending

2 before target

- Where do they appear?

- What do they mean?

=====

1. repeat ending :

Location : Manager... > select any one(or more) event > click "Event" menu (on the top of dialog) > click "Change fields..." > drag down to bottom then you can see.

Mean : decide how to ending the recurrence.

2. before target :

Location : view my previous post

http://www.rainlendar.net/cms/index.php?option=com_kunena&Itemid=42&func=view&catid=7&id=17211&limit=6&limitstart=6#17225

Mean : how many minutes before the event start time (or task end time).
