Modify tooltip.xml file.

Or, what effect you want? (picture at where?)

Can draw it out? (ie. more detail)

hello,

I want to put the images they are in the RSS!  
recover the link there is no problem,

I can not display the image in the Tooltip ...

Example I want to do:

I saw the images you posted, I have a question :

Do You modified the tooltip.xml file ? If yes, Can you posted the contents of your tooltip.xml file ? because I can not make a similar effect. I only can make this :

[http://www.rainlendar.net/cms/images/fbfiles/images/2012\\_07\\_25\\_1.png](http://www.rainlendar.net/cms/images/fbfiles/images/2012_07_25_1.png)

I have not yet tested Tooltip.xml I have not had time...

The image that I post comes from PhotoShop!  
This is the final result I want, but I can not make!!!

thank you anoob for the ideas!  
I look at it the weekend...

Rainy you have an idea on the subject?  
or a future improvement has to do Rainlendar ...

regard
