
Select category and a color for one Calendar

Posted by RMRubert - 2012/07/27 15:14

Now I can use a category OR a color for a selected calendar.

Is it possible to select a category and another color in Shadow4?

Thank you.

Yes.

Right click -> Options... -> Skins -> Categories...

Edit one or create your own.

That program is awesome, I never know that exists.

Gracias! ;)
