
Rainlendar\'s Windows Do Not Respond

Posted by Boris_yo - 2012/07/29 04:07

Please take a look on this screencast to better understand problem:

<http://www.youtube.com/watch?v=P1d6jCDdHsA&hd=1>

In short: Rainlendar's windows do not respond, unless hovered over with mouse until tooltip appears.

You probably have enabled the "click through" feature. Try disabling it from the options and see if that helps.
