
How to change the weather and rss update interval

Posted by znhbj - 2012/07/31 18:40

I have downloaded "Shadow4-Widgets.r2skin-addon" and install it. It works well. But I still have a question. How often does the weather and rss update?Is there any way get the weather to update automatically or quicker?
Thank you. <http://www.rainlendar.net/cms/images/fbfiles/images/1.png>

Welcome to the forum, znhbj.

The RSS feed and the weather are updated every 1 hour, but any time you click on Refresh they are updated again. How much quickly do you need the updates? Weather condition doesn't change too often, and mostly are updated every 3 hours.
