## snooze funktion

Posted by jokr - 2012/08/05 10:07

---

Version 2.11 (b121) 32 bit, Windows XP SP3

Today I had a crash in the following situation:

Date (today entered): 05/08/2012 (correct would be 2013)

Reminder: 25 days

Reminder: 1 day

Rainlendar immediately showed the alert box. I have chosen in the alert box "snooze"

> Crash < :(

=====

## Re: snooze funktion

It's not actually a crash but just an assertion dialog which Rainlendar shouldn't be showing. But anyway, I'll fix that in the next build.
