
Tasks are truncated

Posted by jeantags - 2012/08/24 11:37

I'm using Rainlender with Remember the milk. I often email tasks into Remember the milk. Rainlender cuts off lengthy task titles (email subjects) and doesn't include any of the email details in the detail view in the task manager. Is there any way around this?

Does Remember the milk show the full title and the email details?
