Yes, it was a known error occur on b120, and has been corrected in the next build.

So, you can download the latest build to use:

[http://www.rainlendar.net/cms/index.php?option=com\\_kunena&Itemid=42&func=view&catid=7&id=17741](http://www.rainlendar.net/cms/index.php?option=com_kunena&Itemid=42&func=view&catid=7&id=17741)

Thank you for this update! And thank you to the original poster for reporting.

I came here for this reason and found this before I posted it. Brilliant.
