## Change color of categories?

Hi!

I'm desperately trying to change the colors of some categories, so that I can see the difference between working hours, school etc., but it doesn't seem to work.

I know absolutely nothing about xml/scripting/whatever, I was just recommended the calendar by a friend. :)

Oh, yeah, my skin is Shadow4.

Can anybody please help a know-nothing like me? :)

Thank you,  
- Sofie

Welcome to the forum, Sofie.

There's an easy way to change colors for predefined categories.

Right click on a window -> Options... -> Skins -> Categories... -> select one of them (or you can add one) -> (e.g.) School -> change "calendar day color" and also "text color" for tooltip's text.
