
Alarm file limits..?

Posted by KajiFox - 2007/01/14 09:22

I converted a song that I strongly dislike for use as an alarm -- is there a limit on wave size use? Is there support for MP3 in Pro alternately?

I don't think there are any limits with the wav file size. Mp3 support might be possible in the future but I'd probably have to buy a license for the decoder which would increase the costs and I'm not sure if that's really worth it.
