## Postponing \"All Day Events to a later time

Posted by Dennis - 2012/09/16 17:42

---

Hi,

I would really like an option, I can set up, so my "All day events" will not trigger an alarm at midnight but instead at a given time of the day, like e.g. 8:00 am.

Regards  
Dennis

You can set the alarm to trigger also after the event by entering negative value for the minutes/hours.
