
CTRL-A doesn't work in the task or event text box

Posted by rhino - 2012/09/23 22:34

CTRL-A doesn't work in the task or event text box (the big one).
Probably not a bug so much as a not-developed feature?

The ctrl-a doesn't seem to be supported by the default Windows edit control (but it works on Mac :-)). I'll add this to my backlog.
