## Unable to edit description in Remember the Milk

Posted by virus - 2012/09/29 20:41

---

Hi I used to be able to edit the description field in remember the milk and it will appear as r2:description in my remember the milk webpage.

However, I decided to upgrade rainlendar last month and I realised I'm no longer able to edit the description anymore, just able to read.

Can you please fix this issue? Thank you.

I'll enable the field in the next build.
