## Event Times

Posted by bernieb - 2012/10/16 09:17

---

Is it possible to change the default event times from 00:00-23:30 to say 08:00-22:00hrs?

Options > Advanced, then scroll down to Schedule: First shown hour and Last shown hour.  
Is this what you want?

Thank's Senior Boarder for your prompt reply, I have done what you suggested but when I place a new Event the time still defaults to 00:00-23:30. Would I be right in thinking that I need to click on Template, set the default template to save the new time.

Thank's

Bernieb

I just checked and for me Rainlendar updates itself after I have changed the times and lo and behold - it shows the new hours. Weird that this does not happen for you.
