
Sync Rainlendar with iPhone/iPad?

Posted by Andrew21 - 2012/10/17 07:31

Hi guys

I've used Rainlendar for several years now and I am very pleased about it. Now I just got a iPhone (and iPad btw) and I would like to make my calenders sync - so when I make changes on my iPhone calender it will change in Rainlendar too. And the other way around. So I bought the RainlendarPro and tried trough Google Calendar but without luck. Changes in Google Calendar appears on Rainlendar, but changes in Rainlendar wont show up in Rainlendar? Do someone have a guide to set it up?

Regards Andreas
